

# Overcoming Barriers to Financing Sustainable Urban Infrastructure [Draft Version]

This is the second of two guides in the <u>Financing Sustainable Urban Development</u> series. It covers investment barriers, project bankability, and project preparation to mobilize funding and finance.

### **Learning Outcomes**

## This learning guide is intended to help municipal public officials and related stakeholders:

- Understand the main barriers to investing in sustainable urban infrastructure
- Support project pipeline development
- Develop strategies for mobilizing finance for sustainable development

### **Course Content**

#### Lesson
