WRI India Delhi

Speaker:

Mr Nittan Bhalla,
General Manager & Head - Facilities Management & Operations at
Wipro Digital Operations and Platforms

Moderators:

Miss Shravani Sharma
WRI India

Corporate Adoption of Electric Vehicles in India

For the benefits of electric vehicles to be utilized to the maximum level, they should be adopted within all segments of society. Hence it is important to see electric mobility from a holistic point of view and consider how we can involve private parties in this scenario.

How do corporate companies procure electric vehicles? What could be an efficient business model? What works, what challenges need to be addressed, and what are the expectations for enabling corporate adoption of EVs?

To address these questions and others, we invite you to participate in a webinar on “**Corporate Adoption of Electric Vehicles in India.**” Mr. Nittan Bhalla from Wipro will throw light on key elements of this topic, which will be useful for various groups, including policy-makers, OEMs, EV component manufacturers and operators of all modes, and electricity service providers.

Areas of discussion will include:

- Effectiveness of B2B and B2C for different EV segments in India
- Challenges and opportunities for B2B model for e-cars in India
- Usefulness of B2B model in electrification of buses operating in private sector
- Role of financial institutions in B2B model for EV sector

This 1-hour session will include a presentation, followed by Q&A.

Speaker

[Nittan Bhalla](#), Facilities Head, DOP Division, Wipro

Mr. Nitan Bhalla has been with Wipro for more than 16 years. In his present role, he is responsible for

Facilities Infrastructure, Employee Experience & Employee commute. He has been instrumental in implementing key Sustainability initiatives including Rural BPO, Carpooling & eMobility at Wipro.
