

Online First Session of SEA-AQ Community of Practice

High Air Pollution Episode in Cities: Understanding through Data and Tools

27th September 2023

High Air Pollution Episode in Cities: Understanding through Data and Tools

The insights from the First Session of the Southeast Asia Air Quality Community of Practice, which focused on expert discussions regarding strategies to combat urban pollution through the use of data and technological tools, will provide real-life experiences and a data-driven strategy to tackle air pollution in cities.

The experiences to increase air quality focused on Asian, rapidly urbanizing cities, with solutions run by innovative government officials implementing advanced, real-time urban policies in a supportive and collaborative policy ecosystem.
