

# AIR QUALITY COMMUNITY OF PRACTICE OF LATIN-AMERICAN AND AFRICAN CITIES

Coordinated by WRI Mexico and Africa

## Second stage: 1st tech talk | Air Quality Data: quality assurance and quality control

The second stage of the Air Quality Community of Practice of Latin American and African cities as part of the CanAIRy Alert project started in March 2023. At the first meeting, guidelines were shared on the development of acceptability and conformity criteria for #AirQuality data, as well as useful tools for validating these to produce representative information for simple and complex analyses.
