

Sixth Technical Session | Evaluating air quality impact: indicators to assess policy interventions

The objective of the sixth technical seminar of the Air Quality Community of Practice of LATAM and African cities was to address the importance and the need to design and develop impact indicators (especially those related to air quality and public health) to assess the effectiveness of different environmental and/or urban interventions and policies.

Danielle Wilkins, Manager of Planning, Monitoring, Evaluation and Learning (WRI)

Tania López, Doctor of Science in Environmental Health, expert consultant in air quality for WRI Mexico

Fredy Grajales, Technical Leader of the Center for Information and Environmental Modeling (District Environment Secretariat of Bogota, Colombia)

Adriana Rodríguez, Technical Manager for Sustainability and Climate Change (IMEPLAN)
