36 Bus, 14 Tram, 5 Metro and 9 Ferry lines

Tram:
- approx. 200 vehicles
- approx. 200 km line network
- approx. 500 stops
- approx. 3,700 rides per day

Bus:
- approx. 200 vehicles
- approx. 4,000 rides per day

approx. 850,000 passengers per day (bus, tram, metro, ferry)
• Combined AVL and DMS
• System is operated in a cloud
• Integrated dispatching of buses and trams
• Real-time passenger information (displays and web)
• Automatic track assignment for trams
“I always know where my vehicle is parked and that everything is perfectly clean and well maintained.”

Martin Winkler, Bus Driver
“The DMS simplifies my day-to-day work and ensures that no passenger has to wait for his/her bus.”

Joachim Hansen, Dispatcher
“We refuel and charge buses only on demand, which saves a lot of time.”

Franz Becker, Employee Supply
“Thanks to the DMS, we can quickly react to vehicle malfunctions. Every vehicle is in the workshop only as long as it needs to be.”

Frank Mertens, Workshop Manager
