Our Solution: PSITraffic – Software for Mobility and Efficiency

PSITraffic is **supervising** and **controlling** your **vehicles** on the **road**, on **rail** and in the **depot**. **Profahr** is planning and assigning your **staff**.

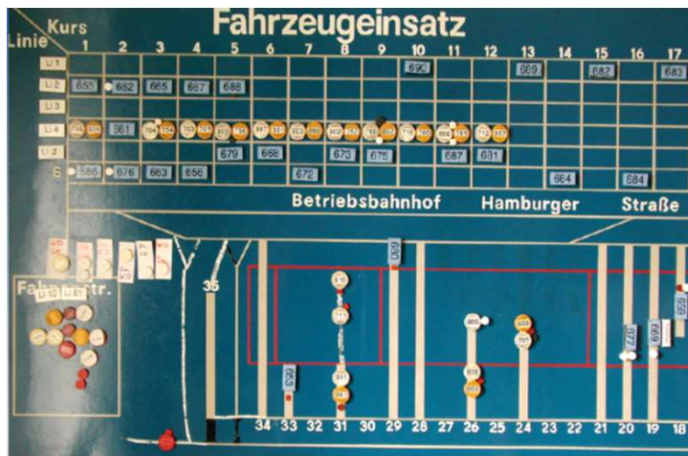

**PSItraffic Depot Management –
Everything under control**

A DMS – Why?

Former way for parking, planing and dispatching of vehicles:

Is this the state of the art in a modern, digital world?
